Between 1300 and 1600 on 11 June 1955, 27 MiG-15s and 1 Yak-11 were observed at Aspern airfield. There was a 10/10 overcast, a northwesterly wind of about 15 km/h, and good visibility. No air activity was conducted. The sound of aircraft engines was heard from the direction of the field for a few minutes before 1300. Individual MiG-15s were towed from north of the flight control station to a dispersal area in the western section of the field. The MiG-15s parked in the northern section of the dispersal area were covered with tarpaulins. Tank truck                      and truck                      were parked in front of the motor vehicle sheds along the southern edge of the field. Three Soviet soldiers patrolled in a motorcycle                      on the road leading to Vienna.
